

Kyla Maroux

Research Associate

Traffic Injury Research Foundation

Kyla Marcoux is a research associate with the Traffic Injury Research Foundation (TIRF), a non-profit, independent road safety institute. TIRF is a world leader in research, safety programs, and policy development.

She completed the thesis requirement for her Masters Degree in Criminology at the University of Ottawa in July 2010, where she was also a teaching assistant. She was previously a research analyst at the Institute for Applied Research at Nipissing University and also a teaching assistant.

Career and research highlights:

- > Kyla has considerable knowledge of the Canadian and American criminal justice system. She has a strong methodological and statistical background, excellent written and oral communication skills.
- > She has experience in various types of research, both qualitative and quantitative, including survey research, focus groups, and program and policy analysis.
- > She has experience in database construction, management and statistical analysis using SPSS and Stata, including univariate, bivariate and multivariate analyses.
- > Kyla has three years experience as a teaching assistant and peer tutor at both the University of Ottawa and Nipissing University. Courses include research methods and data analysis, and quantitative research methods.
- > Before joining TIRF, she worked for the Institute for Applied Social Research at Nipissing University as a research analyst. She interviewed individuals in jails and correctional institutions utilizing the RAI-MH assessment tool, and performed various data related tasks using SPSS.

Academic highlights:

- > Masters Degree in Criminology, 2010, University of Ottawa
- > Honours Bachelor of Arts in Criminal Justice Criminology Stream Degree, 2007, Nipissing University.

Professional memberships and affiliations:

- > Member of the Canadian Association of Road Safety Professionals (CARSP/ACPSER)
- > Member of the American Probation and Parole Association (APPA)
